EXHIBITORS ENTRY FORMS & INFORMATION

Please read carefully.

No dogs on site or in vehicles please:

This is a Certified Seed producing farm; your co-operation at all times would be appreciated.

To enable us to have permission to use this property we have an agreement with Mr & Mrs Brooker, with the following requirements. We would be very grateful if all our participants would abide by these requests, to help us all enjoy a safe and enjoyable Event. We do not want to ask you to leave the premises because of forgetting these points.

***NO hay or straw to be brought onto the property, for any reason.** (Chaff for horses acceptable if contained as much as possible). Small straw bales will be available on site, if required, please add this request to your entry forms. **Old Balers can keep the old bales inside the baler if not disturbed.**

***To avoid contamination, all machinery, utes, trucks & decks** to be well cleaned of old seeds and grasses please. Your co-operation is essential, your equipment will be inspected on arrival, and permission refused if not clean.

***Because of underground electrical wiring and water supplies** for the irrigation, **NO digging** without express permission of Andrew Brooker.

***Tent pegs and signage,** not to be deeper than **250mm** unless discussed with Andrew re the actual site.

Health and Safety:

As we all know there are new rules now in the system. Copy to be signed is included with these forms and must be returned with Entry Form.

You will be provided with a further copy of the Club's updated guidelines in your Arrival Packs at the beginning of the Event. Please ensure you read through them again, so you are well aware of any new regulations.

All Convenors are the Health & Safety officers for their areas.

NEW ZEALAND VINTAGE MACHINERY CLUB INC (CANTERBURY)
EXHIBITOR HEALTH AND SAFETY INFORMATION

HAZARD IDENTIFICATION AND MANAGEMENT

All hazards or potential hazards must be reported to member of the Event Committee.
All reported hazards or potential hazards will be investigated to assess their significance and added to the hazard register if necessary.

MACHINERY OPERATION SAFETY

1. When any machine is being started – check it is out of gear. No persons to stand in front of, or near the rear wheels.
2. Number of persons on any machine is dictated by the number of seats. **No standing on drawbar.**
3. **Steam Operators** please note: 2 only on any engine, 1 stoker, 1 driver – No Passengers.
4. Moving machinery must not exceed walking speed.

PROTECTIVE EQUIPMENT

The exhibitor is responsible for ensuring that all necessary personal protective equipment is worn.

FIRST AID AND ACCIDENTS

A first aider will be present on site during event set up and break down to assist with any minor injuries.

During the event St Johns will be on site.

Procedure In case of a Serious Accident

- Stay calm. Do not move the injured person unless there are other dangers.
- Arrange first aid or other services or assistance as applicable.
- Do not disturb accident site unless further harm will occur or the potential for further harm exists.
- A member of the Event Committee is to be notified immediately of any serious accidents.
- The Exhibitor must inform WorkSafe New Zealand as soon as possible (within 48 hours) of the accident. An investigation into the incident and a written report must be submitted to WorkSafe New Zealand within 7 days of the accident.
- All serious accidents are to be investigated and an accident report completed and supplied to the Event Committee.

FUEL STORAGE & FIRE EXTINGUISHERS

Exhibitors are permitted to store small quantities of fuel on site. Fuel must be in approved containers and sealed tightly when not being used.

Fuel must be stored securely and away from any potential ignition points or heat sources. All exhibitors who have flammable materials on site SHOULD have a fire extinguisher nearby.

NEW ZEALAND VINTAGE MACHINERY CLUB INC (CANTERBURY)
EXHIBITOR HEALTH AND SAFETY INFORMATION

ELECTRICAL SAFETY

Use safety cables or an RCD where required. Ensure all leads are in good condition and are tested and tagged. No inappropriate connections and do not overload the power supply. Ensure that leads are run so that they do not present a trip hazard.

GENERAL EMERGENCY PROCEDURES

FIRE

During the event

- Call the Fire Brigade – dial 111.
- The Fire Brigade are on site and should be advised immediately.
- Raise the alarm immediately by shouting FIRE and triggering any alarm sounding system.

During working bees, at event set up and event break down

- Call the Fire Service – dial 111.
- Clearly state the nature of the emergency and the name and address of the premises.
- Immediately advise an Event Committee member.
- Advise all persons to make their way to the assembly area if this is not the source of the fire.
- Proceed in an orderly manner out of the building by the nearest doorway
- If the building is smoke-logged, keep near the floor.
- Do not endeavour to obtain personal effects from buildings.

EARTHQUAKE

If an earthquake occurs:

If in a building:

- Do not rush outside
- Move away from windows and storage racks
- If possible shelter under a desk, stand in a doorway or lie beside a solid structure and hold on.
- Your first priority is to ensure your own safety.
- Evacuate only when it is safe to do so.
- Make your way to the assembly area.

If you are outside:

- Drop, Cover and Hold
- Evacuate when it is safe to do so

Do not remove any unconscious or seriously injured victims unless they are in immediate danger of further injury.

Stay by them and send for help.

Give first aid to the injured.

Grateful thanks to all our Sponsors, your help is greatly appreciated.
Please give your support to these businesses/groups where possible:
